

## Truro Randonee 2013

### "Rosie" route 66km: Start time 10:00

This ride is on public roads and is not led; you are responsible for your own safety and for dealing with any mechanical problems. Parts of the route follow narrow lanes with limited forward visibility; agricultural vehicles and horses may be encountered at any point; please slow down considerably to pass horses. Be aware that there are poorly-maintained road surfaces and that mud on surfaces limits grip, especially in wet conditions.

See over for list of abbreviations; unless there is an instruction you should follow straight on with the road priority.
